Even,though my robots can't use doors (rip) I LOVE IT WHEN YOU DRESS UP AS THE SILVER SHROUD AND U GET NEW OPTIONS TO SAY :3 Very good DLC. I shall give some classic "Pros and Cons"

Pros:

- The Automatrons are just about the best followers in the game, with tons of customization and powerful weaponry.
- The Mechanist's set is a really nice set to have.
- Another settlement is added.

Cons:

- The Automatron workshop takes up a lot of space, and its really unstable. If you modify a robot the wrong way, it CAN crash your game due to unknown circumstances.
- You have to pay for it and the price is high.
- You cant get a refund if you arent satisfied due to this being a DLC.
